

ASSESSMENT

CLOUD READINESS ASSESSMENT

CYBIT

Embark on Your Cloud Journey with Confidence

How confident are you in your organisation's readiness for the cloud? Migrating to the cloud presents significant opportunities, but also potential challenges. A successful cloud adoption requires a clear understanding of your current IT landscape, a well-defined strategy, and a partner with the expertise to guide you through the process. Our Cloud Readiness Assessment provides the insights and guidance you need to ensure a smooth, efficient, and successful cloud journey.

SERVICE DESCRIPTION

The Cloud Readiness Assessment is a comprehensive evaluation service designed to help organisations understand their current IT landscape and what it takes to move to the cloud. Our expert Solutions Architects analyse your environment, identify optimal migration paths, and provide a clear understanding of the potential costs, risks, and business impact — so you can make confident, informed decisions and de-risk your cloud journey.

KEY DELIVERABLES

- **Assessment Report:** A comprehensive document.
- **Presentation:** A summary of key findings, recommendations, and next steps, delivered by the Solutions Architect.
- **High-Level Migration Roadmap:** An optional deliverable that provides a visual representation of the recommended migration phases and timelines.

KEY FEATURES & BENEFITS

- ① **Comprehensive Evaluation:**
We assess all critical aspects of your IT environment, including infrastructure, processes, skills, and expertise, to provide a holistic view of your cloud readiness.
- ② **Gap Analysis and Remediation:**
We identify the technical and commercial gaps between your current state and your desired future state in the cloud and deliver tailored recommendations to address them.
- ③ **De-risked Cloud Adoption:**
Our assessment provides a clear understanding of your readiness for the cloud, minimising potential challenges and surprises, and ensuring a smoother transition.
- ④ **Cost Transparency and Optimisation:**
We deliver a detailed cost analysis, comparing your current environment costs with projected cloud costs, to help you optimise your cloud investment.
- ⑤ **Actionable Migration Roadmap:**
We provide a prioritised roadmap with clear next steps, empowering you to move forward with confidence and execute your cloud migration effectively.

PRICING

Based on tier of assessment (Directional or Detailed) and size of estate:

- **Directional:** Used for budgetary purposes and helps to build the business case. Report detailing readiness, with an overview of sizing, costs and architecture.

- **Detailed:** Includes installed tooling combined with a workshop-led approach with in-depth readiness analysis, application dependency mapping, business alignment, a skills gap assessment, and a tailored migration roadmap supported by interactive dashboards and prioritised recommendations.

A daily rate applies for additional consulting or support beyond the standard assessment.

WHY CYBIT?

Choosing the right partner for your Cloud Readiness Assessment is crucial. Here's why Cybit stands out:

- ✓ **Expert Solutions Architects:** Our assessments are conducted by experienced Solutions Architects with deep cloud expertise, ensuring you receive the highest quality guidance.
- ✓ **Proven Methodology:** We utilise a proven methodology to deliver consistent, reliable, and actionable results.
- ✓ **Focus on Business Outcomes:** We go beyond technical assessments to align our recommendations with your overarching business objectives.
- ✓ **Long-Term Partnership:** We aim to be your trusted partner throughout your cloud journey, providing ongoing support and guidance to ensure your success.
