

CYBIT MONITOR: YOUR MICROSOFT 365 LICENSING. OPTIMISED.

Cybit Monitor is our unique Microsoft 365 cost optimisation platform.

It gives you full visibility and control, helping you cut waste, stay secure, and maximise return on every licence.

WHY OPTIMISING MATTERS

Too many businesses are unknowingly overspending on Microsoft 365. Licences sit unused. Subscriptions don't match real usage. Renewals roll over without question.

Cybit Monitor puts a stop to that.

HOW CYBIT MONITOR OPTIMISES YOUR MICROSOFT 365 COSTS

Cybit Monitor gives you full visibility into your Microsoft 365 estate – licences, users, security, and updates – all in one intuitive, self-service platform.

- 1 Remove Waste**
Instantly identify and remove licences assigned to inactive or disabled accounts.
- 2 Eliminate Duplication**
Make sure no user is holding multiple subscriptions unnecessarily.
- 3 Right-size Your Licences**
Ensure every subscription fits the actual needs of your workforce.
- 4 Stop Costly Renewals (Before They Happen)**
Avoid licence rollovers that trigger premium-priced renewals you don't need.

WHAT CYBIT MONITOR DELIVERS

Cybit Monitor provides live intelligence across your Microsoft 365 environment – turning insight into action.

Cybit will:

- **Identify and reassign unused licences** quickly and easily
- **Spot over-privileged accounts** that pose unnecessary security risks
- **Eliminate dormant external accounts** from your Microsoft 365 tenant
- **Detect unlicensed OneDrive accounts** before data is lost or deleted
- **Track your Microsoft 365 Security Score** in real time
- **Monitor live security incidents** and alerts within your environment
- **Get clear insights** into service utilisation to guide smarter decisions
- **See what's due for renewal** – fast, with proactive alerts to avoid surprises
